| <input type="checkbox"/> Bob Kemmerle/E2 | <input type="checkbox"/> Rich Coffman/DTSC |

Construction/Validation/Performance

- Mark reported current 19th Street Well activities:
 - Week of 25 June: the City began pumping 19th Street Well #2. The well was operating all week (since last Monday). Well head samples were collected last week and will be collected this week to monitor for PCE stability.
 - Week of 2 July: the City will collect well head samples this week and are preparing to do spinner test on 19th Street Well #2 either Thursday or Friday or the week of 9 July at the latest.
- No changes to the system at EW-108S. Operating normally.
- Mark to ensure that all EW-108S startup data (both water levels and analytical data) is forwarded to URS. This action item to be tracked in the weekly report.
- Kim plans to send O&F letter to the City by approximately 16 July 2007 (in approximately two weeks).

General Discussion

- (No discussion)

Next Conference Call

Monday, 9 July 2007, 2:00 PM Call in #: 415-947-8543, Access Code 2332#
